

MACHINE INTEGRATION

Real-Time Machine Connectivity for the Modern Shop Floor

THE BENEFITS OF MACHINE INTEGRATION

REAL-TIME MONITORING

See machine status and performance instantly to keep production moving.

AUTOMATED DATA COLLECTION

Eliminate manual data entry and capture accurate data directly from machines.

PRODUCTION ANALYTICS

Turn machine data into actionable insights to improve efficiency.

QUALITY CONTROL

Detect issues earlier and maintain high quality across every run.

HOW IT WORKS

MV2 MI connects your machines and systems, collects real-time data, and delivers it where you need it - instantly.

MACHINES & EQUIPMENT

CNCs, PLCs, Robots
Sensors & More

MACHINE INTEGRATION

Collect. Normalize.
Secure. Deliver.

ENTERPRISE SYSTEMS

ERP, SQL, API's

With MV2 Machine Integration, you can:

- ✓ Increase productivity
- ✓ Reduce downtime
- ✓ Improve product quality
- ✓ Ensure data accuracy
- ✓ Scale with confidence

80%

of manufacturers say real-time data improves their ability to make faster decisions.*
